

ANYTHING ELSE **IS** JUST A HOT TUB

JACUZZI® HOT TUB BROCH

HOT TUB
COLLECTION

For each and every one of us life is moving at pace, and it's getting faster. With global advancements in technology, society now harnesses a culture of needing everything instantly.

The benefits of these advancements are many and varied, indeed we as a brand are at the forefront of technological innovation within our own industry. But a constant at the core of our values has always been and remains wellbeing, both physically and mentally.

As original pioneers of the hot tub industry, we completely understand the science behind why hydrotherapy can have such a genuine, positive impact on the way you feel.

So, whether you need a haven of peace away from the stresses of a hard day at work, or are searching for the ultimate in muscle relaxation, the following pages will guide you through how you can experience the 'Jacuzzi® difference' for yourself.

THE HERITAGE OF THE JACUZZI® BRAND

Legendary for performance, reliability and ease of use, we set the standard by which all hydrotherapy is measured. While imitation may be the sincerest form of flattery, only 60 years of innovation can produce hot tub designs made to the demanding standards of Jacuzzi®.

Jacuzzi® products are manufactured in three continents and enjoyed across more than 100 countries, employing thousands of people the world over. Representing decades of innovation, design, performance and ease of use, the Jacuzzi® is trusted by millions of customers globally.

HERITAGE

When the seven Jacuzzi brothers immigrated to America, they had no idea that a pump they designed for orchards would revolutionise hydrotherapy in the home. While the family's critical need to change the life of a child triggered this therapeutic invention, a desire for wellness founded an industry.

CELEBRATING
60
YEARS
OF HYDROTHERAPY

The Jacuzzi family departs Italy for the United States and transforms the aviation and agriculture industries.

When Ken Jacuzzi, age 2, is diagnosed with rheumatoid arthritis, his father invents a portable hydrotherapy pump to provide pain-relieving hydrotherapy.

Jacuzzi soon became a household name thanks in part to repeated appearances on the national daytime television show, Queen for a Day, which boasted 20 million viewers. The Jacuzzi® Brand became an overnight sensation.

Through the years, Jacuzzi® has been awarded more than 700 patents, laying our foundation for unmatched hydrotherapy and leading to breakthroughs in jet engineering, design, and technology.

With a foundation in health and wellbeing, and a dedication to research and innovation, Jacuzzi® continued to develop products that improve people's lives, while leading the industry as the most recognised hot tub brand in the world.

JACUZZI® AMBASSADORS

Jacuzzi® is serious about wellbeing and all of our products are designed with the aim of improving people's live and ultimately, helping them relax, recover and reconnect. We have a long history of partnering with ambassadors who recognise the value our products can bring to their everyday lives.

“ When I've had a long day, there's nothing better than jumping into my Jacuzzi® hot tub. You can just sit in there, switch off, and totally relax. ”

Adam Peaty OBE

“ One of the best things about our Jacuzzi® hot tub has been getting the family together. We are a family of teenagers and trying to get everybody together in one place at the same time is impossible. As soon as the hot tub arrived, things changed. ”

Andrea McClean

“ Jacuzzi® hot tubs have been part of our life for 19 years. We're on our second tub, and I always say it's one of the best things we ever bought when the kids were young. It really got us all chatting and spending quality family time together. ”

Sally Gunell OBE

“ I'll tell you why it's awesome. At first, it was just for me when I threw parties, hot tubs were cool. Then it became for the kids who absolutely love it, rain, hail or shine. Now something else has happened, now that I train a lot, in my 40's I train heavily, I now use it as a massage treatment after my training and it has been a game changer. ”

Peter Andre

“ The Jacuzzi® hot tub is used daily by our players in the Jacuzzi® Performance Centre as part of their preparation and recovery. It is becoming a key component in professional sports training environments. ”

James Clark, Chief Executive

**ELITE PERFORMANCE
PARTNER**

“ Our Jacuzzi® J-400™ series takes elite performance from the race track straight into recovery. The hydromassage gives me enhanced soft tissue therapy to carry me into tomorrow's performance and beyond. ”

Kim Morrison

HYDROMASSAGE

More jets do not equal a better hydromassage, but the right jets do. Jacuzzi® hydromassage utilises the Aqualibrium® formula – the perfect mix of air and water – to deliver a jetted massage that reduces stress and lower back pain, improves sleep and post exercise recovery, and alleviates restless leg syndrome, cramps, arthritis and fibromyalgia, improving your overall wellbeing. As simple as enjoying a cup of coffee, a regular hydromassage routine can be more beneficial than you realise.

PERSONALISED MASSAGE

By studying the anthropometric dimensions of the 5th percentile of females and 95th percentile of males, we can design hot tubs based on the average dimensions of 90% of the population to deliver a personalised massage.

COMFORTABLE SEATING

Seats designed to follow the contours of the body and recessed jets placed to perfectly match the muscle structure of the human form delivers a comfortable, premium hydromassage experience for most body types.

ADJUSTABLE PRESSURE

Using the Aqualibrium® formula, each jet is individually calibrated to deliver the perfect balance of air and water, then precisely paired with the exact pump-to-jet ratio needed to ensure a balanced experience in each and every seat.

POWERPRO® JETS* COLLECTION

Our products deliver an adjustable high-flow, low-pressure hydromassage that feels like no other.

POWERPRO® MX

Based on the form and function of the original Jacuzzi® jet, the MX jets deliver maximum volume at a higher air-to-water ratio to deliver a bold massage to the muscles in the lower back.

POWERPRO® BX

The comforting yet rejuvenating bubbling effect massages the calves.

POWERPRO® FX LARGE

Focusing on the middle of the back to relieve tension and muscle strain, the spiral action massage promotes better circulation.

POWERPRO® RX

The spinning RX jet delivers comforting relief to the back and shoulders utilising the highest performance hydromassage Jacuzzi® offers.

POWERPRO® PX

Perfect for small muscle groups in the wrists, hands and legs, the gentle pulsating massage can be adjusted for different rates of flow.

POWERPRO® FX DIRECTIONAL

Designed to relieve tension and improve circulation, this spiral action directional jet delivers a bold, targeted massage to the hips.

POWERPRO® JETS COLLECTION KEY

FX THERAPY SEAT J-400™ EXCLUSIVE

The full coverage neck, shoulders and back seat delivers a deep, adjustable, rifling, spiral stream of air and water to relieve chronic aches and pains.

FX FX-R NX2 PX

RX JET THERAPY SEAT J-400™ EXCLUSIVE

The spinning RX Jet seat delivers comforting relief to the back and neck utilising the highest performance hydromassage Jacuzzi® offers.

RX NX2

MX JET THERAPY SEAT J-300™ & J-400™ EXCLUSIVE

Recognized as our original Jacuzzi® jet, the MX jet delivers a maximum volume, low pressure deep tissue massage for the lower back.

MX NX2

PROAIR™ LOUNGE J-300™ EXCLUSIVE

Ease tension from your shoulders to your feet through targeted jets, pulsating FX Rotational jets, and exclusive bubbling BX jets for a full-body experience.

FX FX-R FX-LR BX

*PowerPro® Jets are available in select models in the J-400™ and J-300™ Collections. Jets are not to scale.

CLEAN WATER

CLEARRAY Active Oxygen™ technology harnesses the power of air and light to work harder and clean the water longer. It's an advanced oxidation process that destroys contaminants and waterborne pathogens.

UV-C SYSTEM

Nature-inspired technology neutralises pathogens.
Works with traditional chlorine or bromine sanitiser for sensitive skin.
The same technology used in bottled drinking water, aquariums, and hospitals.

OUR HANDS-FREE APPROACH TO WATER CARE

Ozone + UV-C
Active Oxygen

CLEARRAY
ACTIVE OXYGEN™
— CLEAN WATER SYSTEM —

5-STAGE FILTRATION PROCESS*

STAGES
1 & 2

The surface skimming weir and ProCatch™ bag work together to clean the surface while trapping large debris for easy removal.

STAGE
3

The ProClarity® filter on the ProStream™ circulation pump helps ensure clean, sparkling water quickly by catching tiny debris and particles that other filters miss.

STAGE
4

The ProStream™ circulation pumps pulls the water through a ProClear® filter that works to clarify water even when the jets are not running.

STAGE
5

The ProClear® filter operates with your hot tub's hydromassage pump to remove large and small particles providing the cleanest water.

All acrylic models in every collection utilize **CLEARRAY Active Oxygen™** technology and multi-stage filtration

*Stages of filtration vary by collection.

QUALITY

Driven by the desire to continually develop products worthy of Jacuzzi®, our engineers, designers and craftspeople never stop seeking perfection.

Everything we manufacture is designed for reliability, longevity and energy efficiency. We believe that quality is only as good as the people, parts and processes behind it, which is why our products are exceptionally engineered with the best materials to ensure a superior offering.

PROFUSION™ SHELL

- Activate hot tub with your Smart Home devices including, Amazon Alexa, Google Hub, Siri, iWatch
- Access personalised tips and how-to videos

SmartTub™ system uses cellular-based communication and requires cell service from our provider partner in your area. See website for details.
 *Requires subscription beginning in second year of ownership.
 **Estimates are based on sensor readings and are not meant to match your utility measurements, see your local utility company for specifics to your local system.

EFFICIENT RUNNING COSTS

Our Jacuzzi® hot tubs combine 60 years of research and development to provide the most energy efficient hot tubs available. By combining key innovations, we are able to reduce both maintenance and energy costs.

MULTI LAYERED INSULATION

Insulation is what keeps the heat in and running costs down. Through multi layered insulation including high and low density foam, heat reflective perimeter insulation, and patented ProLast™ insulated covers, we limited heat loss, maximise energy re-use, and in turn, maximise energy efficiency.

PROGRAMMABLE HIGH-FLOW PUMPS

Our patented Jacuzzi® pumps are designed to maximise water flow at their lowest possible energy draw. They can also be programmed alongside our filtration systems to run in energy efficient mode to reduce running cost, while maintaining water quality.

PUMP TO JET RATIO

More jets do not equal better hydromassage, and unnecessary overuse of jets can result in far higher running costs. We have mastered the perfect mix of air and water, as well as jet to pump power ratio to give the best hot tub massage in the world at the most efficient running cost.

MULTI-STAGE FILTRATION

Heating and water maintenance is the biggest area of focus to keep running costs low, especially when it comes to a water change over. Over 60 years, we have continued to refine our industry leading multi-stage filtration system which includes ultraviolet light and ozone water treatment to reduce both chemical usage and how often the water needs changing.

REMOTE ENERGY TRACKING AND CONTROL

Our exclusive SmartTub™ technology with always on 3G cell connection allows you to monitor energy usage and customise your setup to maximise energy efficiency. Remote control also allows you to change settings while away from home in case you forget before you head out.

FLEXIBLE FINANCE

It's easy to fall in love with a Jacuzzi[®] hot tub and with our flexible finance options, it's easier than ever to get the perfect one for you. Whether you are looking for low monthly payments, a low initial deposit, or just to delay payment until next year. We have the option for you.

INTEREST FREE - FROM 2-5 YEARS

0% APR REPRESENTATIVE

Get the perfect Jacuzzi[®] hot tub at the right monthly cost, over the optimal term between 24 and 60 months. This customer favourite package requires a one-off low deposit to spread your cost.

BUY NOW PAY LATER

11.9% APR REPRESENTATIVE

Hold onto your money and delay payment on your Jacuzzi[®] hot tub for 12-months. This package has a very low deposit and allows you to settle your balance at any time. If you make the full payment within the deferred 12-month period, then there is no interest to pay.

SPREAD THE COST UP TO 10 YEARS

6.9% APR REPRESENTATIVE

For those that prefer to spread the cost of your Jacuzzi[®] hot tub over a longer 5 or 10 year period with a very low deposit. This package also allows you to make additional flexible repayments at any time so you can have complete control.

THERE'S A JACUZZI® HOT TUB FOR EVERY KIND OF SPACE

No matter whether your space is generous, compact or somewhere in-between, there's a Jacuzzi® hot tub for every scenario. From a lawn fringed patio to a balcony or secluded garden retreat, you can be sure that our skillfully designed and easy-to-install products will be right at home. Plus with no need for outdoor plumbing, your hot tub can be conveniently installed into a level area that best suits you.

J-335™

J-235™

J-365™

J-445™

CHOOSING YOUR MODEL

1. SELECT SIZE AND MASSAGE OPTIONS

A common misconception about hot tub size is that you're limited to models with less seating options when garden space is limited. The good news is that a hot tub with more massage combinations requires only a slightly larger footprint; sometimes a matter of only a few centimetres.

2. CHOOSE LOUNGE VS. OPEN SEATING

A lounge seat offers a full-body massage option and a more secluded spa experience.

An open seating model offers more massage options and makes communicating with others in the hot tub easier.

3. FIND THE COLLECTION THAT'S RIGHT FOR YOU

J-400™ COLLECTION Elegant Styling, Superior Hydromassage

J-300™ COLLECTION Smart Engineering, Premium Jetting

J-200™ COLLECTION Quality and Value

THE J-400™

THE WARRANTY

JACUZZI® HOT TUB PRODUCTS

Jacuzzi® hot tubs are built to the highest standard utilising over 60 years of global industry experience. In the unlikely event that you experience any problems with your hot tub, Jacuzzi Spa & Bath Ltd have you covered with the below warranty programmes which are supported by an experienced network of UK based authorised dealerships and Jacuzzi's own engineer team. We also have dedicated Customer Care Team on hand to contact with any questions or issues.

Warranty durations vary dependent on the product series you choose. A full breakdown of the hot tub series and warranty durations can be found below.

Please note this warranty does not apply to hot tubs purchased for a commercial setting.

JACUZZI® DOMESTIC WARRANTY

This warranty applies to the owner of a Jacuzzi® hot tub installed after January 1st 2018 for domestic purposes in the United Kingdom.

We are Jacuzzi Spa and Bath Limited (company registered number 08295533) of Jacuzzi Group Head Office, 8 Turnberry Park Road, Gildersome, Morley, Leeds LS27 7LE

This warranty is transferable upon the sale of a property at which the spa is located for the remainder of the warranty period set out below, to the purchaser of that property.

PRODUCT WARRANTY

If you discover a defect in your spa product we will carry out an investigation and replace any defective components free of charge during the warranty covered period. The following warranty periods apply to your spa provided that it is purchased from us or an authorised dealer:

NB – in this warranty, a year shall mean the period of 12 calendar months.

The below table demonstrates the key warranty areas offered by Jacuzzi Spa and Bath Limited as well as the different durations given dependent on hot tub model.

Warranty Area	J-400™	J-300™	J-200™
Shell Structure	10 Years	10 Years	10 Years <small>From April 2022</small>
Shell Surface	7 Years	7 Years	7 Years <small>From April 2022</small>
Equipment & Controls	4 Years	3 Years	2 Years
Plumbing Components	4 Years	3 Years	2 Years
Cabinet	5 Years	5 Years	1 Years

Below breaks down what each of the warranty area encompasses:

Shell Structure - Jacuzzi® hot tubs are warranted against water loss due to defects in the spa shell.

Shell Surface - Jacuzzi® hot tubs are warranted against blistering, cracking, or delaminating of the interior surface of the spa shell.

Equipment and Controls - Jacuzzi® hot tubs electrical equipment components – specifically limited to the pumps, heater, and control system – are warranted against malfunctions due to defects in workmanship or materials.

Plumbing Components - Jacuzzi® hot tub plumbing components are warranted against leaks due to defects in workmanship or materials.

Cabinet - Jacuzzi® hot tubs synthetic cabinets are warranted against defects in workmanship or materials.

WARRANTIES FOR OTHER COMPONENTS

- The fuses, headrests, cabinet finish and filters are warranted to be free of defects in workmanship or materials for 30 days following delivery.
- The factory installed CLEARAY® water purification system is warranted against malfunction due to defects in workmanship or materials for one year from the original date of purchase, except the UV-C bulb and quartz tube, which are warranted for ninety (90) days from the original date of installation.
- All stereo related components (receiver, speakers, subwoofer, stereo media locker, power supply, wireless remote control, etc.) are warranted against malfunction due to defects in workmanship or materials for one year from the original date of delivery.
- All other factory installed components not mentioned specifically including, but not limited to the wood frame, jets, diverter valves, LED Lighting systems, filter shield and mechanical components are warranted against malfunction due to defects in workmanship or materials for two years from the original date of purchase.

GENUINE JACUZZI® PARTS & ACCESSORIES

Genuine Jacuzzi® brand parts & accessories (Genuine Parts or Accessories) are built to our highest standards of quality, durability and performance, and they are designed to work with your spa to ensure optimal performance and function.

This Warranty is void if we or our designated representative determine that the spa has been subjected to damage or failure due to the installation of parts and/or accessories that are not Genuine Parts or Accessories.

This disclaimer includes, but is not limited to filters, UV-C bulbs, ozone systems, repair parts and other accessories.

REGISTRATION AND NOTIFICATION

Please register your new spa within 7 days of delivery. You can register your new spa by signing up to our Jacuzzi® Club at www.jacuzzi.co.uk.

Hot tubs must be registered before any authorized service work can be performed.

To obtain service in the event of a defect covered by this Warranty, you should notify us either in writing or by telephone to the number below, or to your dealer, as soon as possible upon becoming aware that a fault has arisen. Upon proof of purchase, a designated service representative will correct the defect subject to the terms and conditions contained in this Warranty.

Upon becoming aware of a fault with your spa you should take all reasonable steps to ensure that no further damage is caused to it, for example by ceasing to use the stereo system or other component system (as appropriate), or the spa itself, until such a time as we or our authorised dealer are able to repair the fault.

There will be no charge for parts or labour to repair a defect with the spa. You are required to provide clear and uninterrupted access to the spa to enable the defect to be repaired. If we are unable to access the spa when attending a repair we may refuse to carry out the repair until such a time as access is provided; in these circumstances we may charge you for our reasonable travel and any other expenses incurred in attending at your property.

In the event that the spa is removed to a repair facility for repair and reinstalled, the cost of removal and reinstallation will be at our expense or that of our authorised dealer.

We reserve the right, at our sole discretion, to either repair or replace any spa (or part of it) that is the subject of this Warranty. In the event that we choose to provide a replacement spa, it will be at least of an equal value and specification to that which is replaced. In such an event, reasonable costs for removal of the original spa, shipping costs from the factory for the replacement spa and delivery and installation of the replacement will be our responsibility.

Any replacement part or spa will carry the balance of the original spa's warranty. Spa covers are not included.

WARRANTY LIMITATIONS

The product guarantee is only valid for products used in the United Kingdom and installed in a domestic environment. This Warranty is void where defects occur from:

- general wear and tear, or alteration;
- repair by a person not authorised by us or our authorised dealer;
- misuse or negligent use which include any installation, operation or maintenance of the spa other than in accordance with the instructions contained in the owner's manual provided with the spa, including but not limited to the failure to maintain proper water chemistry and chemical balance and the use of abrasive or improper cleaners or parts which are not Genuine Parts and Accessories;
- damage arising in transit by a carrier that is not provided by us or our authorised dealer
- the commercial use of the products.

Some parts of the spa are manufactured from natural materials (or man made materials replicating natural materials) which may change in the ordinary course of their lifespan; this may affect the look and feel of the spa. As such these are not regarded as defects, and include (without limitation):

- Products that have yellowed or changed colour in sunlight;
- Products that have failed as a result of the ingress of moisture that are typical as a consequence of use.

This Warranty does not provide cover for insulating covers, or any item attached to or installed on the spa by you.

You accept liability for repair work performed by anyone other than by us or our representative.

THIS WARRANTY DOES NOT AFFECT YOUR STATUTORY RIGHTS
